TITLE:

Presentation to the Mayor and City Council regarding an agreement for the Installation and Maintenance of City Bus Shelters with Advertising.

SUPPORTING BACKGROUND:

As part of the City's Transit Enhancements CIP, 33 new decorative bus shelters are planned for the City between FY'03 and FY'06, at a cost of \$221,000. This will provide bus shelters for all locations with 30 or more boarding per day. The City would also like to replace the remaining 22 County style bus shelters in the City with our decorative shelter. This would cost an additional \$147,400.

In addition to these costs, each shelter requires regular cleaning and maintenance such as: weekly trash collection, litter pick-up, graffiti removal, and periodic glass cleaning and parts replacements. To provide an adequate level of service, additional staff or contract services would be needed.

Another alternative is a public/private partnership whereby shelters are erected and maintained by a private company in return for the City allowing that company to place advertising in the shelter.

Tonight's presentation will review the costs associated with installation and maintenance of bus shelters and a proposal submitted by Culver Amherst to provide the installation and maintenance of the City's bus shelters.

DESIRED OUTCOME:
